EDUCATION

Indian Institute Of Technology – Madras

Bachelor of Science (BS) in Data Science and Applications

Sep. 2023 – Present

Sant Longowal Institute of Engineering and Technology

Bachelor of Engineering in Mechanical Engineering

Nov. 2022 – Present

TECHNICAL SKILLS

Languages: Python, Java, C/C++, JavaScript, SQL (Postgres), HTML/CSS

Frameworks: Flask, Vue.js, Bootstrap

Developer Tools: Git, Docker, Redis, Celery, Selenium, VS Code

PROJECTS

ParkFlow - Full Stack App | *Python, Flask, Vue.js, Redis, Celery*

Oct. 2025 – Present

- Architected a scalable full-stack application using **Flask** (RESTful API) and **Vue.js** for a reactive SPA frontend
- Integrated **Redis** and **Celery** to process asynchronous background tasks (e.g., reports, notifications), reducing API latency
- Implemented server-side caching with Redis to optimize database query performance for high-traffic endpoints
- Designed Role-Based Access Control (RBAC) to manage distinct workflows for Admin and User dashboards securely

Chegg Auto-Refresh and Notification Bot | *Python, Telegram API, Selenium*

Oct. 2024 – Jan. 2025

- Engineered an automation system using **Selenium WebDriver** (headless) to monitor dashboard activity in real-time
- Integrated Telegram Bot API to deliver instant push notifications on data changes, reducing manual checking time
- Implemented multiprocessing to manage concurrent sessions and built robust error-handling for session timeouts

Automated Trading Bot | *Python, IQ Option API, Technical Indicators*

June 2023 – July 2023

- Developed a fully automated trading bot integrating WebSocket APIs for live trade execution and tracking
- Applied technical strategies using Bollinger Bands and EMAs to generate real-time signals with automated risk management
- Built a logging system to track trade history, profit/loss metrics, and API latency for performance analysis

EXPERIENCE

Chegg India

March 2024 – Present

Subject Matter Expert (Computer Engineering)

Freelance

- Authored detailed technical solutions for complex Computer Engineering problems, adhering to strict academic guidelines
- Maintained high accuracy and quality standards while meeting daily submission targets

ACHIEVEMENTS

Competitive Programming | *Codeforces, Meta Hacker Cup*

Oct. 2025

- Achieved a **Codeforces rating of 1200** (Pupil), demonstrating strong algorithmic problem-solving ability
- Ranked **412th** out of 9,028 participants in the **Meta Hacker Cup 2025 Practice Round**
